

*Meetings & Incentives*

*Build a raft  
Team building and nature spirit*

**Reach a common goal**

The teambuilding highlight is to build a raft together. Dedication and creativity of every single person is needed to be successful. The combination of teamwork, technical knowledge, nature spirit and a thrilling river cruise guarantees a communicative and eventful outdoor adventure.

Barrels, bars, and ropes are awaiting you at the shore of the river or the lake. Your task is to build a raft well enough to pass the „swimming test“. It takes about 90 minutes until the raft is ready. Under the guidance of experienced instructors you raft down the river. On the lake you also have the opportunity to challenge the other team in a race raft. A fun day or afternoon is guaranteed. You may end your 'river cruise', after disassembling the raft with a BBQ and salad buffet.

Rafting is possible on the rivers Reuss, Rhein, Aare and on many Swiss lakes; further waters in whole Switzerland on request. Support by experienced rafting guides. Transport of luggage while you are on the river/lake. Neoprene suits and life vests are supplied.

**General Conditions**

Group size: 8 – 120 persons  
Operating dates: May to October  
Assistance: available in several languages  
Location: various rivers and lakes
