

Meetings & Incentives

Did you ever have a tank ride? Try something out of the ordinary!

Venue

Welcome to our military base, near Prague for your private tank driving session. You will have a unique chance to be a tank commander and drive a real tank or armoured personal carrier. This camp was left by the soviet army after the velvet revolution and you will have the opportunity to experience the thrill of driving a tank.

After arrival at the venue the professional team from the Czech Army welcomes you and provides a short presentation regarding the driving. The special army dress (army trousers, army jacket and special helmet for driver) is prepared, as well as the special equipment. The setting-up exercises should not be forgotten, commanded by the Czech Army commander. You will be split into smaller teams (maximum 4 people in each team) due to the capacity of one tank. After the first lesson you prove your knowledge and skills! Driving with the instructor gives you the confidence!

All the time an instructor will be there to help you, but you will be still the commander of the vehicle. After the event you can view other army vehicles of the collection. Professional pictures can be taken by a cameraman and the CD can be given to the clients as a souvenir.
