

Panorama Mountain Experience Stoos-Fronalpstock A hidden pearl in the heart of Switzerland

Stoos-Fronalpstock

Stoos is a small mountain village high above Lake Lucerne. It offers several breathtaking views of more than 10 Swiss lakes and lots of beautiful alpine peaks from Central Switzerland to France and Germany. The summit restaurant on Fronalpstock mountain high above Stoos as well as other cosy alpine restaurants in the village are ideal for small conferences or just to relax and enjoy alpine nature.

Because of its central location, it is quickly accessible from Zurich, Zug and Lucerne.

New mountain experience

Spend an awesome mountain and/or hiking adventure day in the unique mountain and panorama paradise of Stoos. Get to Stoos from Schwyz/Schlattli with the world's steepest funicular railroad, which was built as a tourist attraction and has an incline of 78 percent, or with the small cable car from Morschach. From Stoos you reach the Fronalpstock mountain by using the chairlift or cable car (depending on weather conditions and season). It is the only developed peak with direct view of Lake Uri and the places where the founding of the Swiss Confederation took place.

Leisure region Morschach-Stoos

Car-free, attractive, varied and affordable. Stoos is a unique leisure region in the heart of Central Switzerland with lots of attractions for unforgettable mountain-excursions.

Morschach is located at the foot of the Fronalpstock, on a sunny terrace high above the lake. Marvellous viewpoints, a wide range of walking trails and the Swiss Holiday Park with its wellness & spa area, the sporting and entertainment facilities and water park are the highlights of the small village.
